Eyam - DT Food Technology - seasonal salad

Dear Parents

Our upper key stage 2 children are currently studying seasonal cooking as part of their design technology unit. We've studied seasonality of different fruits and vegetables and have tasted a variety of vegetables currently in season in the UK.

On **Wednesday 24th May** we will be completing the final project of this unit which is to make a pasta salad using some of the vegetables we tasted last week. Children have already designed this, experimenting with different flavour combinations.

Your child will need to bring a **clean, empty lunchbox to school on Wednesday morning** to prepare their meal in. This will be kept in the fridge at school and they will bring it home to eat and evaluate.

We are asking for a voluntary **contribution of £1** towards the cost of ingredients for this term's unit. This can be paid via the shop on school money.

Any questions please don't hesitate to contact school.

Leanne Holmes
